AKCAM, established in 1946, is one of the first handmade glass manufacturers and exporters in Istanbul, operating from a 12,500 m² facility with around 400 employees. With over 75 years of experience, AKCAM produces handmade and handcrafted glassware, including bowls, plates, vases, candle holders, and more for decorative, daily, and tabletop use.

We produce 35 tons of transparent glass daily, using advanced techniques such as handcraft glass blowing, spinning, free-form shaping, pressing, and air-pressing. Additionally, spinning production is carried out using automated machinery. Our products are customizable, with options for painting, silver coating, gold foil decoration, and ornamentation.

AKCAM is committed to innovation, sustainability, and recycling in its production processes. We export to over 50 countries worldwide, offering a wide range of decorative, serveware, dinnerware glass products. Through our sub-brands Silverina and Colorina, we continue to develop aesthetic, high-quality glassware that meets the needs of the world's largest brands.

Our company is producing in Turkey and we are at the forefront of the world's leading manufacturers in the spinning glass sector.

ArdaCam Glassware makes its production in collaboration with the most important brands of 105 countries in the retail market. Today, with our own HoReCa brand, we target the pieces of art of the chefs and the chefs at heart.

We want to develop ourselves in the line with the principles of sustainability by a sensitive approach to environmental friendly production. We always believe in our innovative and creative side in design.

Our production facility, located in Istanbul, built on an area of 20,000 m², provides employment for 400 people by closely following innovative technology with its investments.

With its 450 m² showroom, it builds its concepts in line with the trends of Retail and HoReCa market every year.

We look forward to meeting you with our 33 years of experience.

Dedicated to Decorating Home Products since 1984...

Started its operations in a small workshop in 1984 with the brand "Efeğil", Efeğil Glassware was dealing with glass articles which were processed by decorated glass cutting in its early stage while the decorative glass was new-developing sector in Türkiye.

Advancing technology and changing tastes introduced the tendency of differentiation in product collection and production processes. It has been started to be made very different applications on glass and porcelain by diversifying glass processing techniques within the company.

At this point, Efeğil is to maintain its activities with the infrastructure arised from 40-years of business and market experience by using the techniques of glass and crystal engraving, glass etching, sablaj, gold&silver gilding, painting, etc.

Today the same production techniques are applied on glass and porcelain. Additionally, combining metal materials & parts & various ornaments with glass and porcelain is another division in manufacturing.

Our new project camporselenlogo.com, which started in April 2012, is the website where Elsanat® offers horeca product supply, logo printing and customer-oriented solutions. Our company makes permanent color logo, permanent color printing and etching method on porcelain, glass, ceramic, steel, wood products and surfaces.

I products and surfaces with its colorful logo, permanent color printing and etching method.

In 2014, we looked at; some companies are demanding custom designed glass and porcelain products to present to their customers and employees as gifts... Thus, in line with their special demands, we launched kurumsalhediyeci.com and entered the corporate gift industry.

We produce functional, corporate souvenir products that people you have gifted can use in their daily lives, homes and offices and remember your brand.

Since its establishment in 1994, LAV has taken a leading role in the glassware industry thanks to its focus on market, costumer, technology and innovation.

Its facilities located in Kütahya, LAV is the world's fifth largest glassware manufacturer, supplying 2 million items every day with a large range of tumblers, stemware, bowls and etc. Today, LAV employs 2,000 people, with its sales and marketing office in Istanbul and two production plants built on a 300,000 square meter area in Kütahya.

LAV exports its innovative and unique glassware products to 130 countries, including France, Spain and USA in particular, as well as Brazil, the Philippines and China. It does this thanks to its globally extensive distribution and sales network, which reaches different landmark based countries around the world such as Zanzibar, Mauritius Islands, Victoria Falls, Tokyo, Sydney, etc.

LAV carries out its research and development activities on glassware production technologies at its Technopark facility, which is described as a "plant within a plant." Built in 2001, the innovation-focused Technopark is one of the three companies in the world which creates its own production technology.

Mercanlar, having a history dating back to 1976, has been leading its industry since the day it has been established by always making innovations. Mercanlar, who is the inventor of its product group in kitchenware industry with "Renga" branded products, continues its leadership with its strong distribution network spread to 70 countries and its products used with great appreciation all over the world. Both the logistical advantage of its geographical location, and its high production and stock capacity, enable it to transport its products to the customers in very short periods of time. It has a hard-to-achieve record in its business area with 240.000 pcs. per day production capacity and average 10 days delivery time.

Mercanlar's design and R&D oriented operations are focused on always delivering most quality products with design superiority to its consumers, giving highest priority to their health and pleasure.

Product range, formed by the products which are mainly the combination of glass, plastic and metal materials, consists of jugs, water, milk and fruit juice bottles, salt and pepper shakers, spice jars, storage jar sand bowls, oil / vinegar bottles, baby and children feeding sets, special decorated product groups, licensed product groups and plastic kitchen utensils

Şişecam is the world's and Europe's second largest producer of glassware. The Company boasts a strong distribution network, an extensive range of products and exceptional production capabilities. Recording its first exports in 1961, Şişecam rapidly expanded its production capacity as a result of its export-driven growth strategy while also meeting growing demand in the domestic market between 1980 and 2000. In addition to Turkey - Kırklareli, Eskişehir and Denizli- Şişecam currently maintains production operations in Bulgaria, the Russian Federation and Egypt. Şişecam focuses on meeting the needs of three key segments - household, catering, and industrial – with over 20,000 different products, specializing in automated production as well as handmade products, with its brand Paşabahçe, a leader in glassware. Today, Şişecam has a huge customer base across 140 countries with its global production of glassware. Besides its leading position in glassware manufacturing, Şişecam is also a leader in the Turkish market with its retailing operations – Paşabahçe Stores which operate in Turkey and international markets with a total of 50 store locations, and online sales channels.

Tulu Porcelain has been producing porcelain for over 25 years by combining industry-specific knowledge and expertise with modern management principles. Our journey began in 1995 in a ceramics workshop, continued with ceramic manufacturing until 2012, and then flourished with successful R&D efforts, breathing life into our porcelain production. Starting in an 8000 m² enclosed area, our operations expanded in 2019 with investments that added a new facility of 45,000 m², providing employment for 1000 people and shining as a prominent aspect of Kütahya.

Moreover, through commercial activities spanning 39 countries, we have significantly contributed to our country's exports. In the Home and HoReCa segments, utilizing hand decoration, digital printing, and decal technologies, we offer personalized product options to individuals and businesses, steadily increasing brand awareness in national and international markets.

Our products are prepared with components that do not contain carcinogenic substances, ensuring user health, and are presented to end consumers as bacteria-resistant and easily washable. They are now more transparent, durable, and possess a water absorption rate below 0. Our products are manufactured in compliance with TSE10850 standards.

As AS SOGUT SERAMIK we manufacture ceramics since 2002.

We produce ceramic kitchenware and tableware groups both patterned and colorful with a monthly capacity of 200.000 pieces.

Our products are decorated with sponge printing method. The products are handmade and the patterns are applied one by one dabbed them into paint with hand cut sponges. Then, the final stage is taken glazing and 1100 degrees firing processes respectively.

With our own design team, we create new patterns and new products every year with an innovative approach. Quality and customer satisfaction is our important priorities. For this reason, every products comes from production line goes through careful quality control before packaging.

Each products is handmade meaning every piece is unique. You may order this unique gifts with your purchases for your loved ones.

Due to the unending production and sustainability issues of contracted manufacturers, Turkey's largest ceramic handicraft factory investment was done in Kütahya 1.Organized Industrial Zone on over 5000m² area. The factory was built as an integrated facility where entire manufacturing process including raw material production to packaging is being done. Workforce of the company is based on women workers and atelier educations are provided continuously to help women of Kutahya to participate in worklife. After long R&D experiments, our products become everyday life user friendly and suitable for hot-cold food chain safety while maintaining thousands of years old traditional handicraft feature.

Set out to make people's lives easier, Baroness has found a place in the showcases in a very short time and has gained the attention of the consumers. Our products also get attention abroad, and now available to people in dozens of countries. Our company's priorities are quality, durability, and health, but we also try to make our products to be economical as well as practical and elegant.

The most important basis that carries our company to international markets is its vision, which has been formed with years of experience, and the reputation and trust gained with the care it has shown to its business. We believe that under the umbrella of BARONESS İÇ VE DIŞ TİCARET LİMİTED ŞİRKETİ, with the new production site, experienced production staff, and intense efforts to develop products, the Baroness brand will be much more famous and become a world brand. Sustaining customer satisfaction is our primary goal when working to facilitate and enrich people's lives.

Esda Store started its operations in İstanbul in 2013, supplying products that are not available in Turkey, taking into account consumer needs, and growing in 2018 with its innovative structure, it started to produce all kinds of plastic materials in its own structure in a closed area of 2500 square meters in Kocaeli. Since its establishment, Esda Store supplied these products to many companies such as A101, Şok Market, Bim, Tedi, Hakmar, Watsons, Eve Shop, English Home, Rossman, Hepsiburada, Koçtaş, Evidea and these, cooperates with many companies abroad with its product quality at international standards. The products are exported mostly to the Middle East countries, Europe, Russia and African countries.

We use for all items (PS) Polysterene Crystal Clear raw material from manufacturer BASF (EU), which is FDA compliant (non toxic/odorless); has a clear view, good dimensional stability and excellent aesthetic quality. Our clear polystyrene products keep no stain, get no moisture or wetting from the environment and can easily be cleaned. Our annual production capacity is ever expanding and growing, we have produced around 1000tons worth product in the last year during Covid times. We provide a leading example with the use of new technologies and getting modern day innovations in our factory.

Established in a small workshop located in Istanbul Vefa district in 1985 as a private company.

Gül Plastik is improving itself day by day in order to meet the demands of its customers with the approach of product designs which are reliable, innovative, does not sacrifice quality and always renovative with its modest structure.

Within the scope of this approach, Gül Plastik shows its customers its quality and brand in supermarkets such as BİM, A101, Migros, Carrefour, as well as distinguished wholesalers and retailer chains in the domestic market, and in various countries in the international market.

Our company's product range includes PVC plungers, soap trays and dispensers, hanger organizers, and bathroom and shower anti-slips that meet the needs of today's people for daily usage.

Our company, which started production in the plastic sector in 1960's, has been producing melamine kitchen ware since 1979. We have become a company that constantly innovates in order to offer the best to our customers without sacrificing quality, design and original patterns in production and we continue to do so.

Due to our recognition of our brand both in Turkey and abroad, our company has a great responsibility. In this sense of duty we are constantly working in cooperation with our professional staff for customer satisfaction and product quality. We create areas for new projects that will appeal to many areas of the kitchen and service sectors in the changing economic and social conditions of the 21st century.

Since its establishment in 2006, Obje Plastik distinguished with creative ideas and innovation.

Obje Plastik is one of the major manufacturers and exporters of Turkey. In our Istanbul Plant based on 12.000m², all production cycle carried out with the highest quality standards and multiple quality-wise solutions including robot automations.

Integrated carpentry division & printing-engraving processes have brought a new look to plastic housewares.

Household items are exported to 50 countries in 4 continents under Wellini brand.

With our products exhibited at the most prestigious sales points at home and abroad, we are progressing in line with our goal of becoming a world brand.

Product design and mold making carried out in-house, therefore we can offer complete solutions from design to packaging for custom needs.

We have been serving as a long-term partner for product display stands and other POSM solutions for many corporate companies as Pepsico, Unilever and FMJ.

Our products are produced with high quality raw materials and they are suitable for food safety regulations.

In addition, our quality and social responsibility policies are documented with ISO-9001-14001, BSCI - SEDEX and FSSC Accreditations.

Our company was established in 2009 to operate in injection mold production and plastic parts production. We started producing kitchen and home appliances under the "Mugiss" brand in 2022 in order to transfer our experience in the fields of design, mold production and part production to our products.

With our sufficient machinery and staff, we have gained the experience to complete all processes in a short time, starting from the design phase of our first products, to mold production, plastic injection production and delivery to our customers. We aim to produce innovative and practical products in the field of kitchen and home appliances and offer our products to consumers at competitive prices.

The company started working in the field of plastic household appliances in 1994.

Satisfying the needs of its customers for brand-new products with unique designs, in 2011, the company successfully introduced rattan pattern plastic products to the Turkish market. By combining long-lasting design activities with high-quality virgin plastic materials acquired from outstanding suppliers, Sakarya Plastik proudly presents its products for the use of its customers.

With its quality control system from production phase to the submission phase, the company minimizes the faults that may occur in the manufacturing process. As a positive consequence of this policy, it has been endorsed by the worldwide known ISO 9001 and ISO 22000 documents. Additionally, in line with the national legal regulations, the company's production phase is also closely followed by Turkish officials. Exporting its products to different corners of the world, especially to Middle East, North Africa and European countries, Sakarya Plastik takes the necessary steps to promote its products in various countries and to present its high-quality products to people all over the world.

ZERPLAST PLASTİK company produces plastic household products and is a company that has recently been incorporated into ZERGROUPE, one of Turkey's well-established institutions. The product range mainly consists of cleaning brushes, mop sets and parts, dustpan sets and parts and plastic clothes hangers. You can download and review the active product catalog from the web pages. In addition, it also markets plastic garbage bags produced by its sister company ZERPAK (please visit www.zerpak.com.tr for more information). While company markets its products under the brands STAR+ and VIORA, there is also private label production available. ZERPLAST exports to more than 30 countries together with its sister company ZERPAK.

We have the latest technological production line, with the advantage of being a young company run under the management of an experienced team and employees. We always use the highest quality raw materials in production, and great attention is paid to product quality and for being consumer-friendly products. In addition, our facility is an environmentally friendly facility and has a zero waste certificate from the ministry.

Kozi Plastic Company Overview (Founded in 2022)

Kozi Plastic is a dynamic and innovative company, established in 2022, specializing in the design and production of high-quality plastic housewares and moldings. With a passion for sustainability and a commitment to modern design, we are dedicated to creating products that combine practicality, style, and environmental responsibility.

At Kozi Plastic, we offer a broad range of eco-friendly plastic products, from everyday household items to custom-designed moldings, all crafted with the latest advancements in design and manufacturing technology. Our focus is on creating durable, functional products with innovative designs that align with the growing demand for sustainable solutions in the marketplace.

Key Services Offered:

Design Consulting: Our team of experienced designers works closely with clients to develop tailored solutions that meet both aesthetic and functional requirements. Whether you're looking for product development ideas or specific design optimizations, we offer expert guidance.

Private Labeling: Kozi Plastic provides businesses with the opportunity to offer high-quality plastic products under their own brand name, allowing for seamless integration into their product lines without the need for extensive design or production investment.

OEM Production: We offer OEM manufacturing services, producing plastic goods to our clients' exact specifications. Our commitment to quality ensures that all products are produced to the highest standards of consistency, durability, and design.

At Kozi Plastic, sustainability is at the core of everything we do. We prioritize eco-friendly materials and energy-efficient production processes to minimize our environmental footprint. With a focus on innovation, quality, and customer satisfaction, Kozi Plastic is quickly becoming a trusted partner for businesses and consumers seeking high-performance, eco-conscious plastic solutions.

Whether you're in need of ready-made products, custom designs, or full-scale production services, Kozi Plastic is here to deliver top-notch solutions that align with your brand's values and goals.

Wiella creates unique wooden decoration and kitchen products inspired by nature. Our mission is to bring warmth and elegance to your living spaces by combining aesthetics with functionality.

Our products stand out with three-dimensional designs in various geometries, breaking away from traditional standards. Inspired by the unique forms of nature, we craft original and contemporary products.

At Wiella, we embrace not only aesthetics but also a mission centered on environmental and health consciousness. Our products are made entirely from natural wood, free from harsh chemicals, and our production processes are carried out with respect for the environment.

Beyond beautifying your homes, we strive to reflect our respect for nature and health through our products. We invite you, our valued customers, to transform your living spaces and take a step toward a healthier future.

7STEEL

**INNOVATIVE
TECHNOLOGY
AND
INDUSTRIAL
POWER
ALL TOGETHER**

SUPERIOR QUALITY AT EVERY STAGE OF PRODUCTION UNDER ONE ROOF

7STEEL IS A STEEL THERMOS MANUFACTURER THAT STANDS OUT WITH ITS SUPERIOR DESIGNS, ADVANCED TECHNOLOGY PRODUCTION PROCESSES AND STRONG CUSTOMER-ORIENTED APPROACH. WE OFFER SUPERIOR QUALITY SERVICE UNDER A SINGLE ROOF AT EVERY STAGE OF PRODUCTION.

OUR FACTORY IS IN ŞANLIURFA, LOCATED ON THE SILK ROAD, ONE OF THE OLDEST TRADE ROUTES OF THE WORLD, REVEALS ITS DIFFERENCE IN THE SECTOR WITH INNOVATIVE MACHINES INTEGRATED WITH THE LATEST TECHNOLOGY ROBOTS. THE FACTORY IS BUILT ON AN AREA OF 45,000 M², INCLUDING A 10,000 M² CLOSED AREA.

OUR STAINLESS STEEL THERMOS PRODUCTION IS INTEGRATED FROM A TO Z UNDER ONE ROOF. 7 STEEL IS THE ONLY COMPANY IN TURKEY WITH A FULLY INTEGRATED FACILITY IN STEEL THERMOS PRODUCTION. THANKS TO LASER WELDING, LASER CUTTING, LASER MARKING, FULLY AUTOMATIC POLISHING LINE AND WET AND POWDER COATING, WE VIRTUALLY ELIMINATE THE MARGIN OF ERROR IN OUR THERMOSES. THE RAW MATERIAL ENTERS PRODUCTION AS UNPROCESSED STEEL AND PLASTIC GRANULES AND COMES OUT AS A PRODUCT.

7STEEL IS THE FIRST AND ONLY COMPANY IN TURKEY TO PRODUCE STEEL THERMOS WITH ROBOTIC TECHNOLOGY. MODERN PRODUCTION EQUIPPED WITH THE POWER OF AUTOMATION ENSURES QUALITY AT EVERY STAGE OF PRODUCTION. 7STEEL IS ALSO THE ONLY FACTORY IN TURKEY WITH A COPPER PLATING LINE, WHICH IS ESSENTIAL FOR HOT AND COLD STORAGE. THE INTEGRATED PLANT ALSO APPLIES TO SECONDARY PROCESSES. DYEING AND MARKING ARE DONE UNDER THE SAME ROOF, WHICH HELPS TO OFFER DIFFERENT COLOR OPTIONS AND ENSURE SUSTAINABILITY IN COLOR SHADES.

From 1959 to the Present...

The CEM brand, born in a small workshop in 1959, rose to its rightful place in the industry by pioneering the culture of non-stick coatings in kitchens, leveraging its experience and strong sales network." In 2022, Fetih Group, one of the leading manufacturers of aluminum discs and aluminum cast kitchenware in the sector, acquired the entire company and continues the production and sales of the brand under the name CEM MUTFAK EŞYALARI.

Today, CEM, as one of the largest manufacturers in Turkey, attracts attention with its quality and innovative products in its sector. It offers the best solutions to customer needs with its three separate production facilities, Rolling, Casting Products, Roller and Spray Products Facility, each with teams specialized in their own fields.

CEM Mutfak Eşyaları is proud to be one of the largest manufacturers in Turkey with its strong infrastructure, experienced staff and innovative approach.

It sells its products produced with the latest technology in its factory in Başiskele/KOCAELİ both at home and abroad, and reaches many countries from America to Hong Kong with the CEM brand. Continuing to innovate with the strength and experience it draws from its 65-year history, the CEM brand continues to add flavor to the tables of our country's and world cuisines with its wide range of products.

Hisar has been a leader in "The Art of Dining" concept since 1968. Today, it provides elegant and stylish tables through its unique interpretation of design.

Hisar enhances your tables by displaying flatware, cookware, and accessories which you can use throughout your lifetime. It combines first grade worldwide stainless steel, flawless technology, and efficient workmanship.

Hisar processes the prominent AISI 304 quality, 18/10 chromium-nickel alloy stainless steel, and offers a 25 year warranty on its flatware. Having placed its signature on delicate and elegant products over the years, Hisar is acclaimed for its high quality and innovative products. In addition, it supports production through intense research & development and product development workouts. Hisar also holds the first ISO (International Standardization Organization) 9001 quality certificate handed out in this sector.

Our company, which dates back to the 1940s, has been a family organization that has been growing for three generations in the sector for three generations.

Production journey, which starts with the production of copper kitchen utensils, continues in the following three groups in the most preferred groups of cooking group products;

- *Stainless steel*
- *Aluminum non-stick coated*
- *Enamel*

Our Group has always been innovative, competitive, high quality, and with a variety of diversity in products. Thanks to this vision, our company, which is moving on top of the previous year, is proud to be the leading company in the sector by producing stainless steel, non-stick and enamel products in the cooking group in recent years.

Its total production area to 85.000 m², and its production capacity is 100.000 pcs / day.

In 2022, Bonera has increased its accessibility by adding another service point to its domestic and international customers by opening an office where all our products are exhibited in Istanbul, one of the most important trade centers in the world with a new breakthrough.

Mutlu Metal was established in 1980 and started manufacturing handles from stainless steel in 1986. Our company develops special products for customer demands mainly from stainless steel materials and makes serial production of these products. Our expertise is the design and manufacture of stainless steel kitchenware and marine products and cookware accessories of these products, especially handles and knobs.

We can produce handles and knobs with using sheet metal, tube, profile and wire products. We have press, machining, welding and surface treatment machines suitable for stainless steel metal production in our factory and more than 200 in accordance with customer requirements. The molds, apparatuses and gauges required to realize these processes are also designed and manufactured in Mutlu Metal.

Mutlu Metal is a manufacturing company that exports 95 % of the products and 170 people work and grows with its investments and is one of the leaders in its sector with its production capacity and technological infrastructure. Our company is manufacturing in world standards with ISO 9001: 2015 Quality Management System ISO 45001-2018 Occupational health and safety management systems and ISO 14001: 2015 Environmental Management System certificates at its factory established on a total area of 9.000 m² in Yazıbaşı / Torbalı with 5.000 m² closed area.

HİRA was established in 1988 and is the rooted company of the Turkish stainless steel kitchenware sector. HİRA, which stepped into the sector by producing teaspoons during its first establishment, rapidly improved its production in line with the increasing demands. Today, it added many products from fork-spoon and knife production to teapot to coffeepot-tray, using state-of-the-art industrial machinery, and continues to increase its product range without sacrificing quality in stainless steel kitchenware. HİRA, which sees production and leadership in production as the main source of success, works without sacrificing the “quality and trust” duo; We are proud of the compliance of production quality and the technology power used by world standards.

7Steel is a steel thermos manufacturer. We offer superior quality service under a single roof at every stage of production. Our factory is in Şanlıurfa, reveals its difference in the sector with innovative machines integrated with the latest technology robots. 7 Steel is the only company in Turkey with a fully integrated facility in steel thermos production.

Thanks to laser welding, laser cutting, laser marking, fully automatic polishing line and wet and powder coating. The raw material enters production as unprocessed steel and plastic granules and comes out as a product. 7Steel is the first and only company in Turkey to produce steel thermos with robotic technology. Modern production equipped with the power of automation ensures quality at every stage of production.

7Steel is also the only factory in Turkey with a copper plating line, which is essential for hot and cold storage. The integrated plant also applies to secondary processes. Dyeing and marking are done under the same roof, which helps to offer different color options and ensure sustainability in color shades.

Founded in 1960 in southern zone of Turkey, Taç did its first activites with rolling copper and aluminum. The next invstement was the production of Aluminum Disc, which is the base of today's core busnness of cooking utensils.

1996 With the brands of TAC, AKSU and Vallena, TAÇ group of companies produces more than 2,5 Mpieces of cooking utensils and 50% of the total production is exported from Europe to of the Middle East countries, North Africa, Russia and the CIS. From stainless steel (INOX) to non-stick, all types of cookware have been designed and developed in our factories and laboratories. The latest coating Technologies are implemented according to international standards.

Tel : +90 212 886 71 90 – 91
Fax : +90 212 886 71 94

Üçgen Industrial - Tribeca was established in October 2004 as Turkey's first rotational molding company in its sector and still is the only Turkish company using rotomolding manufacturing technique in the HORECA Sector.

Starting with a 90 m² warehouse in its early stages, Tribeca today serves its customers in a closed production area of 5.500 m² with 65 employees.

Aiming to easily deliver our goods in United Arab Countries and neighbouring countries, we established a warehouse in Sharjah Free Zone in the beginning of 2020 and in September 2021 we moved to a 650 m² warehouse just 50 meters away from the Salah Al Din Street known as the headquarters of Industrial Kitchen Suppliers in Dubai. From its production facility in Turkey, Tribeca has managed to reach 70 different countries in exports so far.

The goal of Tribeca since its establishment was to produce and export HORECA products that used to be imported to Turkey. So far it has been quite successful in this regard. It is the only manufacturer in Turkey for at least 40% of its products while keeping a great quality-price ratio compared to its competitors.

Since the raw materials we use in production cannot be produced in our country, they are imported from abroad. The selection of raw materials is also of paramount importance. In this matter, we choose the best quality without making any concessions. The biggest share in our success comes from being sensitive in this matter and not resorting to cheap alternatives.

All our products have been tested and certified by international certification centers in outsourced laboratories.

Three young entrepreneurs who started to produce ceramic stoves in a small manufacturing workshop established ASEL in 1979 in Istanbul. Their values were "hard work, reliability, integrity and dedication". Today we are a keen second generation of manufacturers and we strongly stick to the core values of our fathers. We are enthusiastically producing and exporting high quality MINI OVENS, CONTACT GRILLS, COOKERS and HEATERS.

We are a big family together with our team members, clients and business partners all around the world. Our factory is located in our beloved hometown Istanbul that offers excellent geographical advantages to all parties.

Atmaca Elektronik A.Ş., was established in 1979 by Hayrettin Atmaca as a personal entrepreneurship and in a short space of time became one of the highest taxpayers in the country. Atmaca Elektronik A.Ş., thanks to its small household appliances, TVs, satellite receivers, phones, tablets and various electronic equipment and deep-freeze product group under SUNNY brand, became Turkey's 3rd Large Scale Electronic Manufacturer. SUNNY, with its 110.000 squaremeter space, state of the art manufacturing facilities, is at a level that can match the high manufacturing requirements with its state of the art surface mounting lines in Turkey.

Saruhan Holding's foundations were laid in 1947 with the store that Hakkı Saruhan opened in Rize. In 1970, it turned into a more comprehensive structure thanks to the initiatives of the second generation Saruhan family in various fields in Istanbul by developing a newer vision.

The trade which started with low and high tension electricity materials continued with the import of:

- Electric Home Appliances
- Industrial Cleaning Machines
- And all kinds of powder and liquid detergent.

*Our company,
It was founded in 1965 in Istanbul, Turkey by Muhittin Sezin.*

It has been one of the top ranked companies in the lighting industry in Turkey, and has introduced and enlightened all Anatolia, especially the North-west part of Turkey, with its innovative products.

Our company has been expanding its production and its service network across Turkey and now cross borders after relocation of its center to the Aegean Region since the 90's. Today, our company operates in a closed area of 3500 m2 with more than 40 employees, the most of which are technicians in Fethiye/ Muğla.

Our team took a part in numerous significant projects and created unique designs for its customers with a wide range of product selection, some of which our own crafts and some imported over the years. Furthermore, our R&D team developed a few products such as solar lamp which is patented under the name of our company.

When King Pazarlama ve Dış Ticaret A.Ş. was founded in 1953, it produced the first thermos in Turkey. It became a joint stock company in 1974 and started to manufacture and import small household appliances in 1985; has taken the Türkiye representations of the world-famous Zojirushi and Phoenix brands. In the same year, it introduced the King brand, which has German TÜV/GS and European Union CE quality approval certificates, to the Turkish market.

Today, King Pazarlama ve Dış Ticaret A.Ş. operates under the King brand with more than 250 product types in the categories of vacuum cleaner, food preparation, cooking and frying, beverage preparation, ironing, personal care and other household appliances.

While advancing to the future with reliable quality, reasonable prices and years of experience for more than 70 years, King continues to work to further expand its product range and reach higher customer satisfaction day by day.

Since 1972; KORKMAZ produces stainless steel kitchenware products and small electrical household appliances; As time passes production capacity keeps increasing and technology shows innovation following the actual age.

Like this Korkmaz succeeded in increasing its presence in the market.

Within 46 years KORKMAZ has showed an important change in a very significant way, but in this period of time the only thing that didn't change is the corporate identity which aimed as main idea, effectively developing and be identified as a brand idea which actually became the mission of KORKMAZ.

We, as the company "MOTORFAN", began our journey in 1992 with the production of motors. This began to develop economic, innovative, creative and decision-oriented production principles and became the basis of the company's direction in the sector of manufacturing kitchen aspirators and hoods.

We continue our knowledge and experience, acquired over more than 20 years, in a plant newly built in 2015 with 30,000 m² of indoor and 10,000 m² of open area, equipped with the latest technology and equipment, where each department has experienced and specialized personnel.

ACARSAN Pazarlama ve Sanayi Ticaret A.Ş. was founded in 1992 in İzmir, Turkey, specializing in non-food grocery products. After restructuring in 2018, production and marketing activities were consolidated under ACARSAN A.Ş. The company operates three brands: Mistique Home (New Year products), Korplus (Barbecue products), and Forebest Acarsan (Wholesale and retail).

8

Key facts:

- Approximately 250 employees. Operates 9 retail stores under the ACARSAN FORBEST name in İzmir and the Aegean region.
- One of Turkey's largest wholesalers in the non-food sector under the Forebest Acarsan brand.
- Only producer of Christmas trees and accessories in Turkey, with a 30,000 m² factory in İzmir/Aliağa.
- Products include Christmas trees, ornaments, party supplies, home appliances, wooden furniture, barbecues, and more. Environmental commitment:
- Implements a "Sustainable Environment and Energy" policy, using solar power and rainwater collection.
- Certified as an "Environmentally Friendly" and "Green Company." Holds ISO and BSCI certifications.
- In 2024, invested in new machinery to boost exports to over \$10 million by 2025.

As one of the productions of mankind that grows to facilitate growth, ceramic culture, which was born and matured in Anatolia, has become one of the central areas of art, which is the means of mankind to express itself. It has brought together our inner voice, which is kneaded with treatment and aesthetic values, like water, air, leakage. The yearly past continues to be reflected daily.

Sinem Ceramic, founded as a boutique workshop in İzmir by Sinem Alkan, a graduate of the ceramics department of Ege University, and Uğur Alkan, a graduate of business administration, represents these cultural components with original products designed with contemporary, aesthetic and functional interpretations. Sinem Ceramic, with the aim of telling the story of the long and colorful journey of this ancient art that acts as a bridge between the past, has been providing services in its structure and continues since 1997 with its artistic and decorative products, interior and exterior wall panels, boutique bad special for individuals and stores, as well as high capacity and high quality frequently used goods.

Sinem Seramik, which enriches its contemporary and clean designs with new concepts every year, as well as designs based on Turkish regime art, Ottoman and Seljuk culture, produces a wide range of products specially designed for manufacturing companies and individuals or institutions, with its distinguished collections created with different perspectives.

BMG House was established in early 2000s in Istanbul, Turkey. From the beginning we started working with various local and foreign companies in household goods sector. In 2015 we decided to focus on foreign supermarket and hypermarket chains, therefore narrowed our customer portfolio and in a couple of years, almost 90% of our income came from exports alone. Then, we knew exactly which markets to focus on.

Doğrular, continuing its activities for 43 years, is one of the production companies in its field, which is a source of pride for our country. Our company, established in 1979, has not only contributed to production and employment since then, but also acted with the philosophy of satisfaction and "for people" to provide the most functional products and services to many of our customers both in our country and abroad.

In addition to our factory in Konya, which is established on 132 thousand square meters of area, we have opened our factory in Russia covering 30 thousand square meters, as one of the most important strategic points of the world. In addition to these factories, our logistics center was opened in Istanbul for a strong logistics system. Our logistics center also covers an area of 5 thousand 300 square meters. By employing almost 500 people in our factories and logistics center in total, we lead the way in the household products industry, and we produce functional and ergonomic products.

Some of the product groups we produce in a wide range to facilitate the life of their users are as follows; Ladders, Ironing Boards, Laundry drying racks, Market Trolleys and camping products.

We contribute to facilitating people's lives in their living spaces by producing the products listed here and creating the designs in their sub-categories with our brands, Perilla, EveLux, Doğru Metal, HousePlus, Noktati and Romee.

Endüstriyel ve Kurumsal Ürün Grupları

MOPIX – FOR PROFESSIONAL CLEANING
The competence and "Know-How" of MOPIX starts with the production of microfiber, plush, mop fabric and yarn, and extends to the final mop and cleaning cloth production.

A high-quality mop; It is produced by considering dozens of components, including the right yarn, the right fabric, the right production technology, and an innovative and environmentalist approach. Optimized production processes have raised product quality standards to the highest level. We allocate a lot of time, manpower and budget to R&D for the continuity of our concept of continuity, innovation and environmentalist approach. You can safely find all our knowledge and experience in our products under the MOPIX brand.

It was founded 40 years ago from Aslan Ticaret, but in 2003 it became famous under the brand Schafer. At the start, it only had 10 different product selections.

Nowadays, Schafer contains 3 main categories (with more than 1000 varieties) such as: glassware, porcelain dinner sets, cutlery, cookwares, kitchen tools, electrical home appliances and home textile products. Due to its high quality, it has gained a fundamental esteem all over Turkey.

In 2015, Schafer settled in a new office, in Beylikdüzü, Istanbul. The building is the biggest to date, with the enclosed measurements of 30.000 m².

HM Glass and Porcelain is a company founded to gather new colors, new patterns and new emotions to indispensable objects of our daily life such as tea glasses, coffee cups and dinner sets. HM introduces Koleksiyon and Evaliza D.W.R. brands to a larger audience to add quality and design to our everyday life. Koleksiyon brand offers tea glasses, coffee cups and dinnerware sets that bring a modern interpretation to Anatolian traditions and redesign our daily habits. Koleksiyon products are registered and signed by the designer Faruk Malhan. Evaliza D.W.R. is a tableware brand, specially designed to create stylish presentations for elegant dinners and everyday life and it is created by our own designer team.

All products of HM are available for sale at design and selective shops, special HORECA sales channels and also at websites. For more information, you can contact us at info@hmltd.com.tr.

KORKMAZ 

Since 1972; KORKMAZ produces stainless steel kitchenware products and small electrical household appliances; As time passes production capacity keeps increasing and technology shows innovation following the actual age. Like this Korkmaz succeeded in increasing its presence in the market.

Within 46 years KORKMAZ has showed an important change in a very significant way, but in this period of time the only thing that didn't change is the corporate identity which aimed as main idea, effectively developing and being identified as a brand idea which actually became the mission of KORKMAZ.

Kosova Züccaciye was established as a retailer at the beginning of 70's and entered the wholesales business in 1992 by establishing their sales office at Tahtakale. Later the company has changed its profile to an importer and exporter in 1994 and is still active as a wholeseller, importer and exporter at their current head office and showroom in ISTOC area of Istanbul.

Their product range consists of %70 imported goods and 30% locally produced housewares which are porcelain and ceramic cup&saucers, mugs, dinner sets, spice sets, condiment sets, serving trays, breakfast sets, glass and wood chopping boards, chrome and stainless steel wire accessories, acrylic, metal and polyresin bathroom sets, silverplated serving items, decorative clocks and other assorted decorative items. Company follows the current seasonal trends and unique styles in their sector while picking their product variety.

VISION

Kosova Züccaciye aims for importing high quality products to increase customer satisfaction and establishing more efficient local / international cooperation by adding wider variety to their product selection. Their most important mission is to continue their investments and innovations to become a better known brand in their sector.

Our company, which has its roots in the 1960s and operated under the name of 'Gönül Ticaret' in those years, then 'Tekin Ticaret' in the 1990s and finally 'Marmara Glassware Ltd. Sti.' in 2010 in order to institutionalize, has become a company that has a say in our country and our region today without compromising the principle of adding strength to itself, its business partners and stakeholders every day with its "always forward" commercial philosophy. Our company, which currently imports from China, Egypt, Dubai and Iran and exports to Iran, Azerbaijan and Nakhchivan, is the regional distributor of 38 manufacturer / importer companies, especially Paşabahçe and Güral Porcelain, which are the pride of our country. Our company continues its activities from Ağrı, which is called the roof of Turkey.
